

In the Performance Insights Dashboard the insights were as follows .I decided to check the year 2020

1. Customer Dependency

In 2020, **Electricalsara Stores alone contributed ₹65.6M (46.1%)** of total revenue and **50.6% of total profit**, revealing a high business dependency on one customer.

2. Underperforming Markets

Bengaluru (-0.01) and **Lucknow (-0.04)** consistently missed sales targets in 2020, indicating weak regional performance.

3. Profit Margin Drop

Profit margin fell from **4% in Jan 2020** to just **0.9% in Apr 2020**, despite revenue staying around ₹20M–₹30M. This suggests operational or pricing issues during that period.

4. Low-Profit Customers

Electricalssale Stores generated **₹142K in revenue** but **0% profit**, showing inefficiency in certain client relationships.

5. Emerging Growth Markets

Bhubaneswar (+0.09) and **Hyderabad (+0.06)** exceeded targets, even during 2020, highlighting strategic growth potential.

6. Target Simulation Tool

A **Profit Target slider** enables quick visual comparison of actual profit vs. goal (e.g., 1%), aiding performance tracking.
